

Please do not allow LPFM stations to take priority over current FM translator service. I listen exclusively to a FM station that is broadcast through a translator, K-LOVE FM. K-LOVE serves my local community by providing commercial free broadcasting 24 hours a day. The music and information broadcast through K-LOVE is always safe, clean listening, it is never offensive or crude. There are no "truly" local stations in my area that I can say the same about. If K-LOVE is replaced, my community will not have a commercial free station to listen to and those of us who are "displaced" will have to put up with endless commercials and chatter by the DJ's which is often crude and offensive. Those in my area that listen to K-Love will be forced to give up listening to contemporary Christian music on the radio. The service K-Love provides to my community is very important. K-Love announces many free community events that otherwise would not be announced to such a large audience. K-Love presents uplifting and encouraging news stories as well as the "regular" news. K-Love operates in the public interest and it would be detrimental to many communities for K-Love's translators to lose their places on the air.

Thank you. Please consider these comments as you make your decision.

Sincerely,
Carolyn T. Huskins
